# Problem Statement

Do any of the following seem familiar?

- Feeling bored of studying alone or working too much?
- Confused between learning & playing?
- Want to learn while you play?

Don't think you're unusual because there are thousands of students or in general say people who wants this!

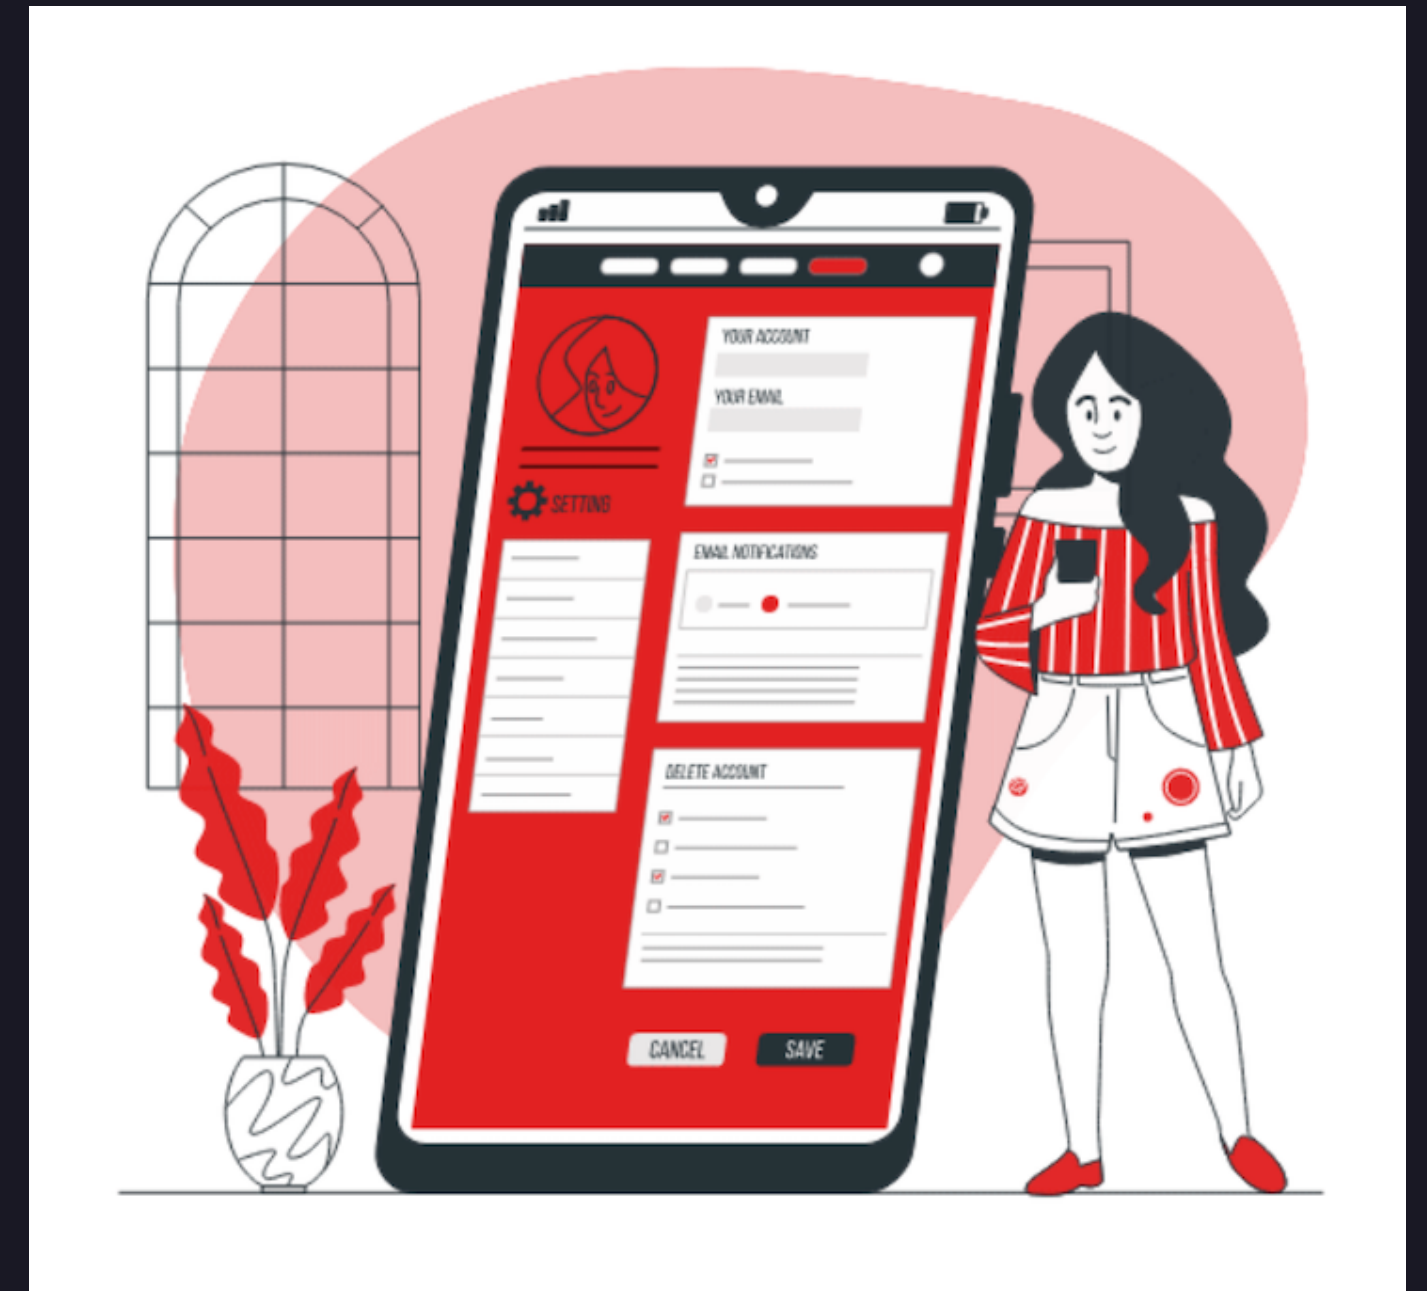

# Solution

- TRIVIA is the go-to app that helps one to play quizzes in group.
- It helps in passing your time in a fun and productive way.

# Features

- 216,138 Trivia Questions
- Sign-in/Sign-up
- Play Trivia based on different categories
- Play with friends
- Learn new things

# Front End

- **FLUTTER:** Flutter is an open-source mobile UI framework created by Google which allows us to develop cross platform applications
- **DART :** Dart is a programming language designed for client development, such as for the web and mobile apps.

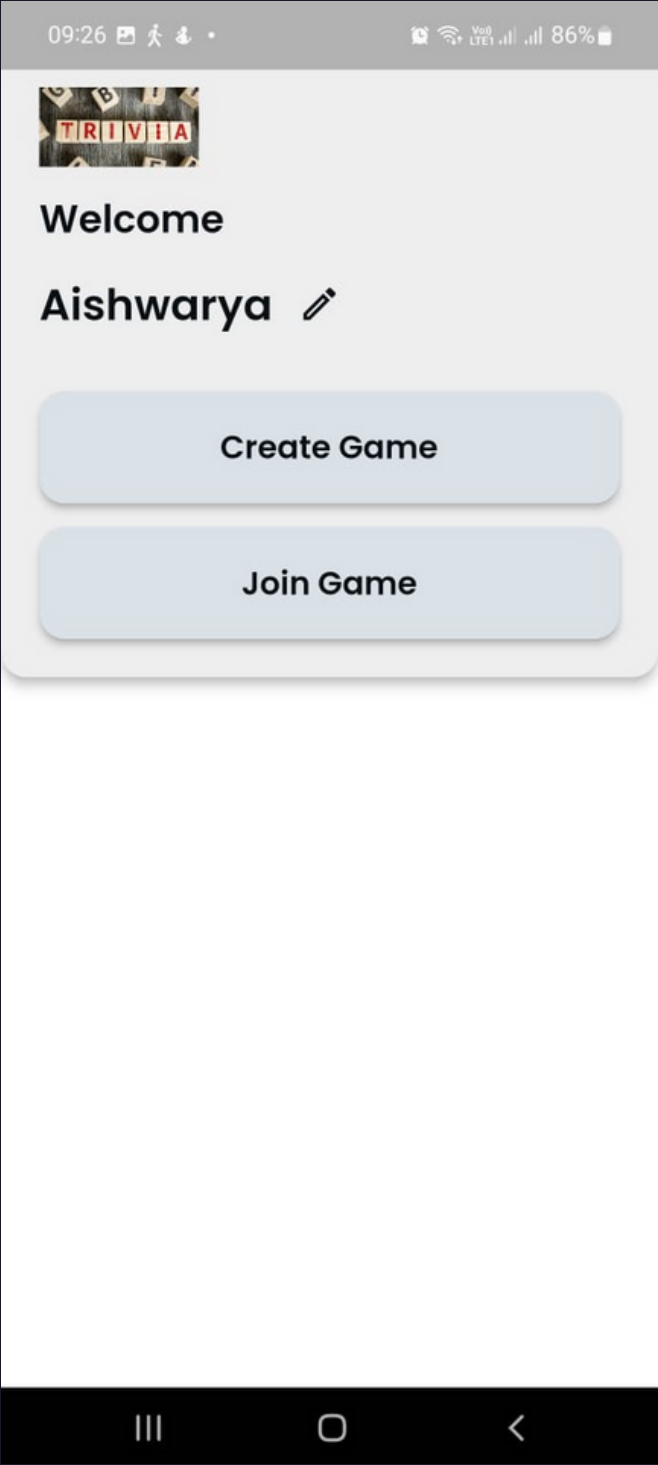

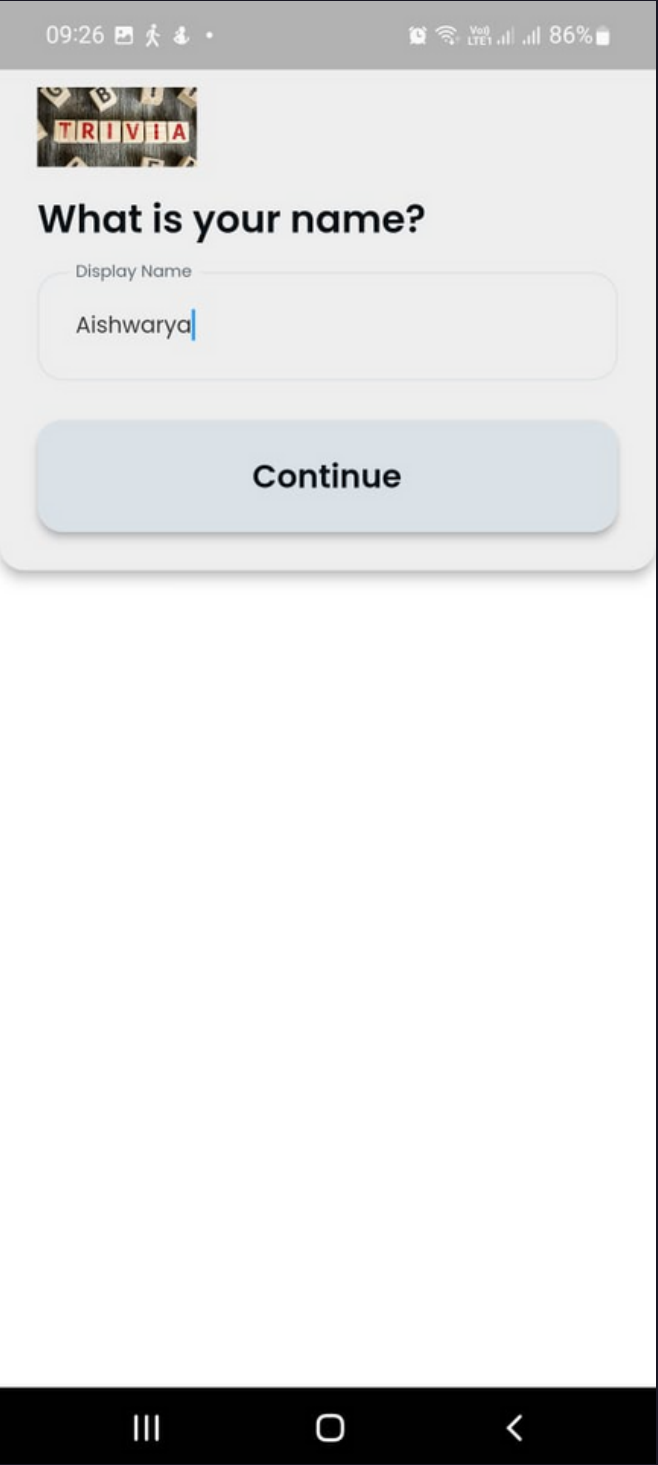

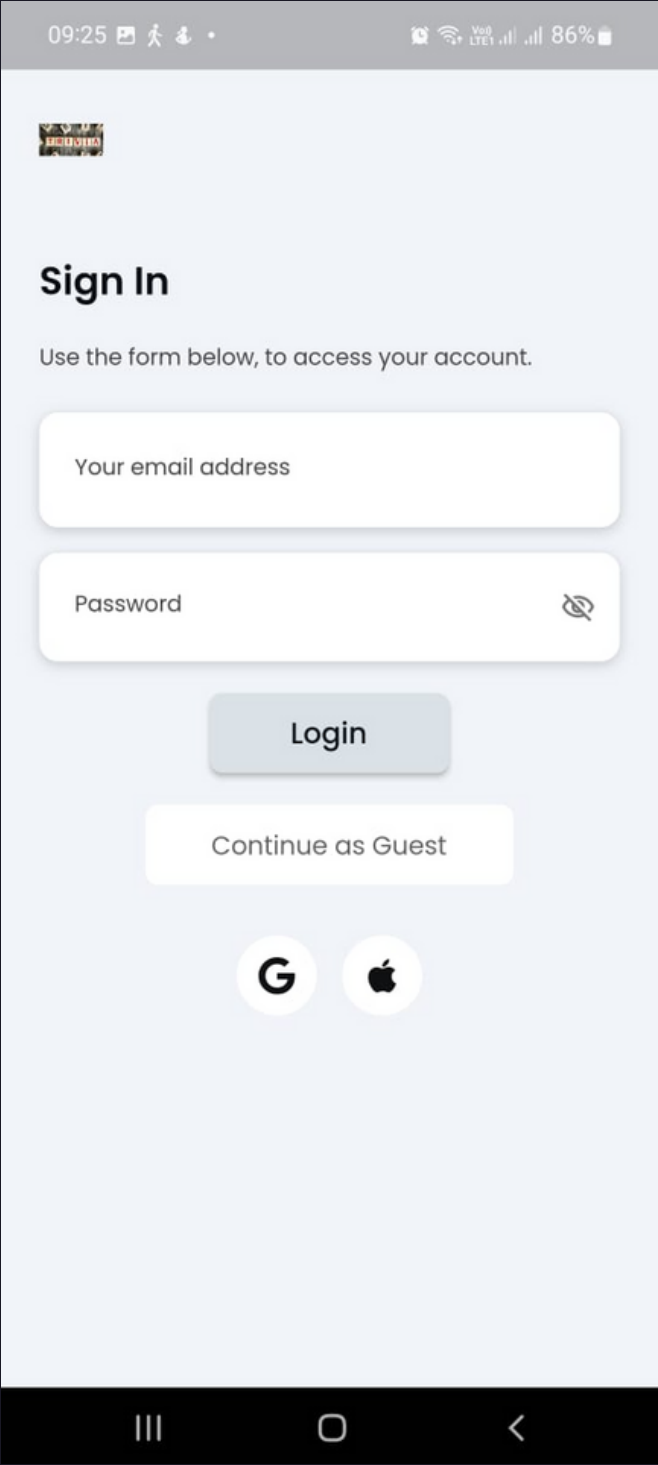

# Backend

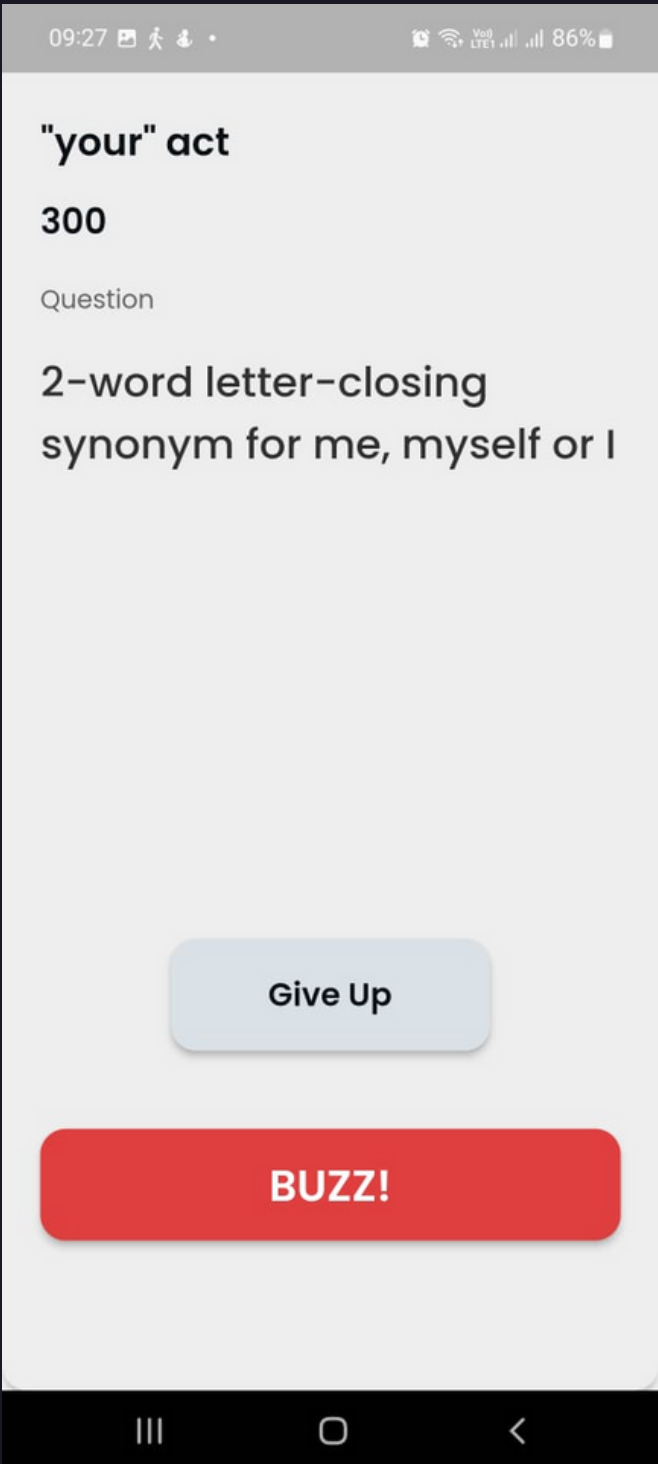

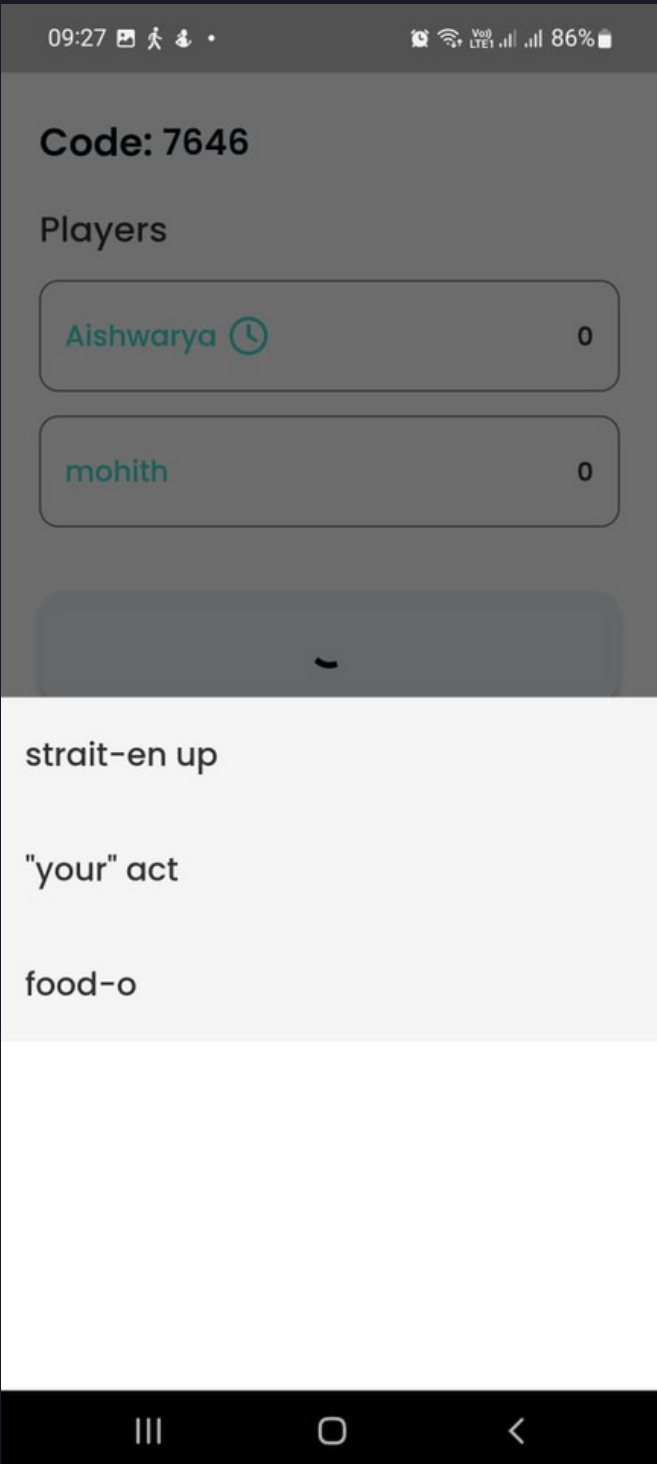

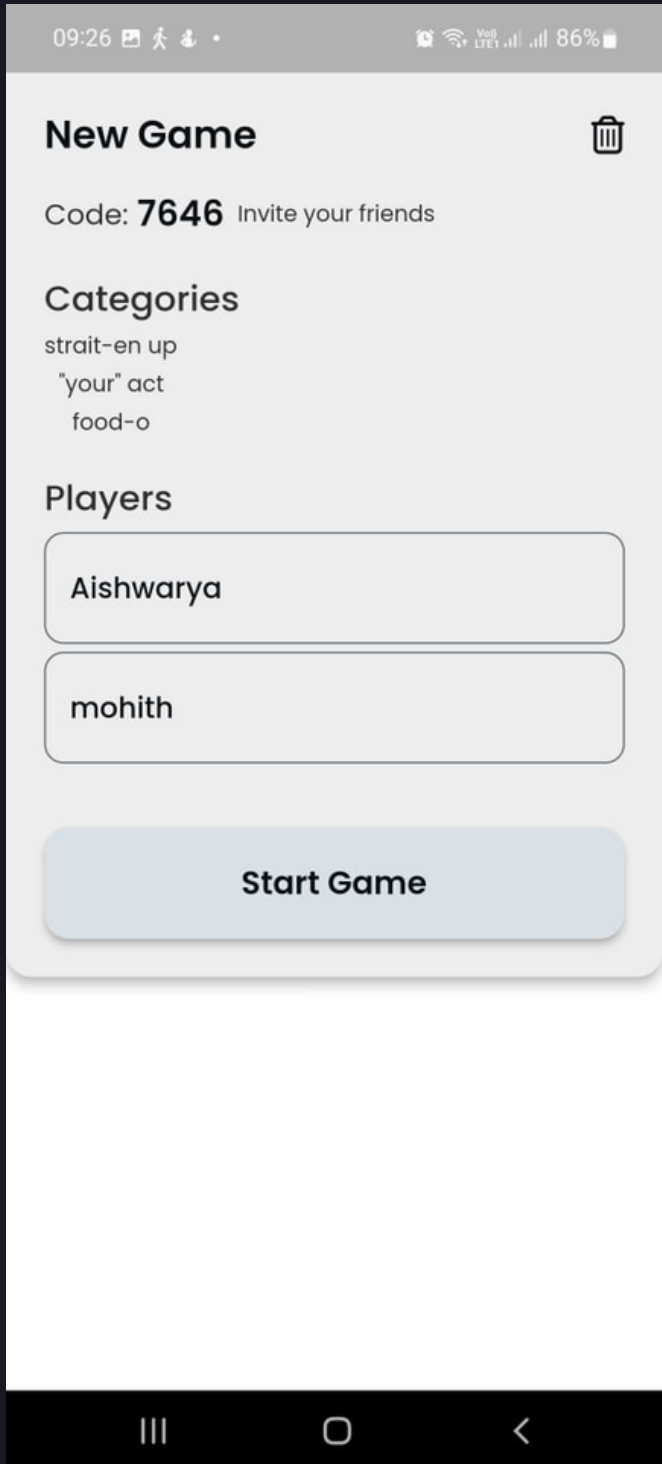

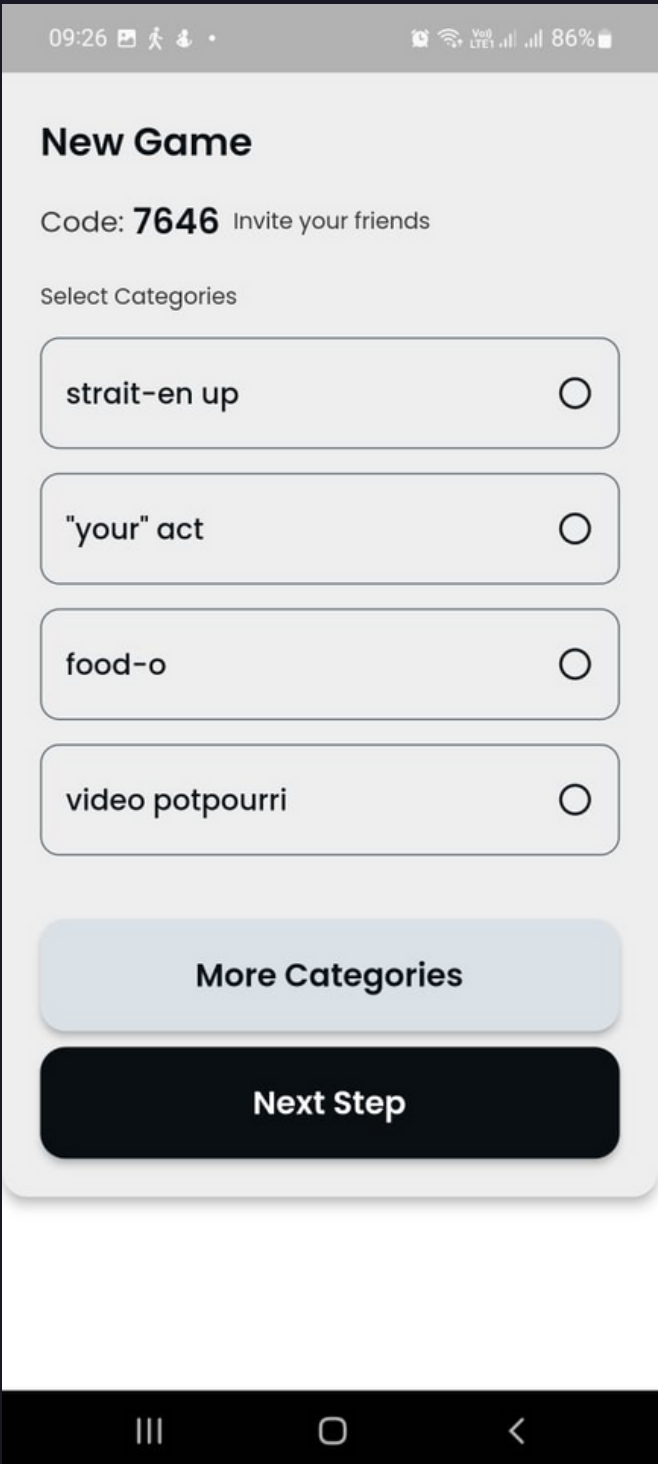

- **FIREBASE:** Firebase is a set of hosting services for any type of application (Android, iOS, JavaScript, Node.js, Java, Unity, PHP, C++..). It is a platform developed by Google for creating mobile and web applications
