PROJECT IDEA

- Can I read the news only of the categories that I want to be constantly updated of, but I am tired of scrolling through all the news to reach/get a news I am interested in????

- Yes, a solution to this is "Dope Scoop" is the go-to app which gives you the news based on the categories you are interested to avoid constant scrolling and get updates from the source you trust in via verified channels.

NEWS

FEATURES

- Custom news feed based on selected sources

- Saving articles

- Explore news based on categories

- Search for topics

- Sharing articles

TECH STACK

- **FLUTTER** :   Flutter is an open-source mobile UI framework created by Google which allows us to develop cross platform applications

- **FIREBASE**:   Firebase is a set of hosting services for any type of application (Android, iOS, JavaScript, Node.js, Java, Unity, PHP, C++..). It is a platform developed by Google for creating mobile and web applications

- **GOOGLE SIGN IN**: Flutter plugin for Google Sign-In, a secure authentication system for signing in with a Google account on Android and iOS.

- **FLUTTER WEBVIEW DESIGN**: Plugin that allows Flutter to communicate with a native WebView.

- **News API**:   News API is a simple, easy-to-use REST API that returns JSON search results for current and historic news articles published by over 80,000 worldwide sources.
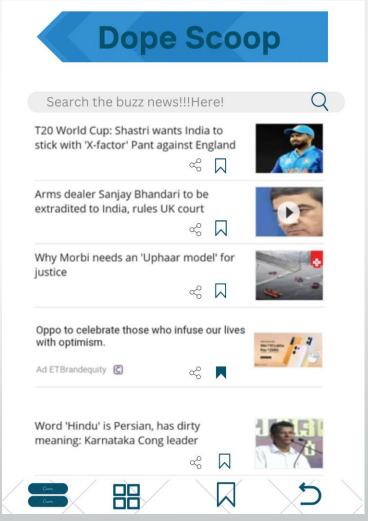

# MOCK UI

(1)- Welcome page or the Landing page

(2)- When User clicks on the category button

MOCK UI(Continued…)

(3)- When User clicks on the Channel Button
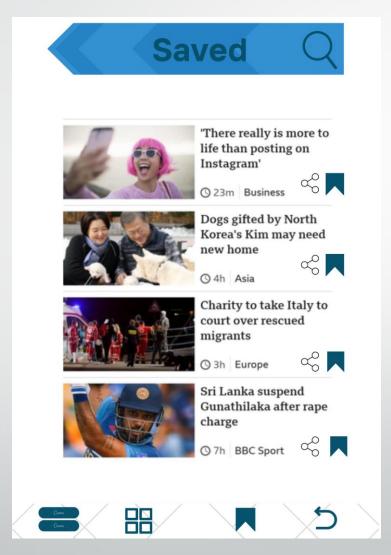

(4) - When User clicks on Search Icon
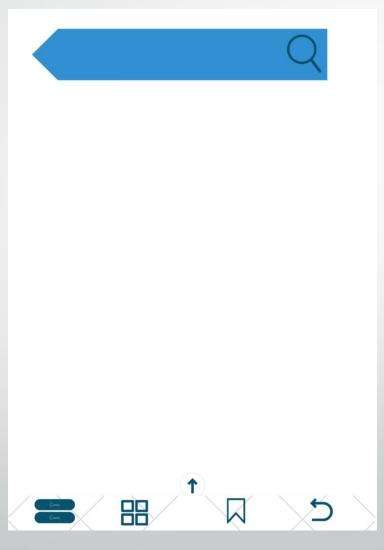

MOCK UI(Continued...)

(5) - When User clicks on the Required category

(6) - When User clicks on the Required Channel

MOCK UI(Continued…)

(7) - When User Clicks on the save icon to see the saved articles

MOCK UI(Continued…)
